New York, Jan. 27 .- In the first half of the stock exchange session to-day the trading, though a trifle more active than during most of yesterday's session, was of comparatively small volume and com-paratively little significance. In the afternoon, and especially in the last hour,

ernoon, and especially in the last hour, the market became more active.

It had been generally strong from the beginning, with the exception of copper stocks whose weakness discrets follows:

Northal August Markets discrets follows: and a further decline in both spot and future prices for copper metal in that market, but in the late trading practically all of the stocks in which transactions were at all numerous or landary actions were at all numerous or landary actions.

actions were at all numerous or large advanced buoyantly.

Atchison and Norfolk and Western were strong from the opening to the close, the former continuing to profit from the remarkably good December statement and the latter recovering from the slump it experienced when earlier in the week the directors, declaring the regular dividend, set at rest for the time being the reports of increase in the dividend rate and other developments favorable to stockholders.

Railroad Stocks Continued trans.

Railroad Stocks Gain.

On the day gains of more than a point were scored by such standard railroad stocks as Baltimore and Ohio, St. Paul. Chicago and Northwestern, Reading, and Union Pacific, among others. Among the ordinarily less active stocks in which gains were conspicuous were International Harvester and Buffalo, Rocheste

Directors of the Buffalo, Rochester and

Directors of the Buffalo, Rochester and Pittsburg declared the regular semi-annual dividend of 3 per cent on the preferred stock and increased the common dividend from 2 to 2½ per cent semi-annually. International Harvester was one of the few stocks to advance on account of the proposed new tariff legislation in reciprocity with Canada.

The agreement for such legislation was, of course, the principal topic of discussion in the financial district, and was everywhere considered of prime market importance. As was to be expected there were a few critics of the plan, but the prevailing opinion seemed to be that the agreement, if made effective, would profit both this country and the Dominion by directly producing more active trade, and indirectly would be of benefit as leading to much closer trade relations later on.

benefit as leading to much closer trade relations later on.

Doubly were expressed that Congress would pass the proposed legislation at the present session, but the hope was generally expressed that the agreement strong the strength of the proposed legislation at the present session, but the hope was generally expressed that the agreement would be ratified at no distant day. At any rate, every one realized that whether or not the agreement is ratified, it will serve a useful purpose in disclosing the sincerity of legislators who have attracted public attention by loud demands for drastic tariff reductions as a remedy for the high cost of living. In this way also the discussion over the agreement may have an important bearing on the radical tariff measures expressed at the next session of Congress.

Encouraging News Received.

Other news of the day was also of a

character to encourage holders of stocks In addition to the increase of dividend by the Buffalo, Rochester and Pittsburg General Chemical stock was advanced from a 5 to 6 per cent basis, and a divi dent of one-half of 1 per cent on the B ern Railroad, as compared with a dec-It was explained that the increase in

the General Chemical dividend was am-ply warranted by a considerable increase in the company's business last year. The increase in dividends natural-b caused a subsidence of the prediction of a period of dividend reductions In the bond market, standard securities continued in good demand.

"Trade as a whole is quiet to dull, and tends to drag, except as in the case of where spring requirements must be met

and filled. Relatively, most activity is shown in fertilizers, implem and kindred lines,

"Unseasonably mild weather through out the country has tended to dull retail trade, despite clearances, and many markets report the week's operations in this few markets, where early spring buyers few markets, where early spring buyers are in evidence, trade has ruled quiet, though there is an increasing disposition to throw off the slow feeling that has ruled since the opening of the year.

"Cotton goods lead in activity in this direction. In wholesale lines generally, however. conservatism rules purchases for spring and further distant positions. Demand, where evoked, is apparently the result of inducements of forced buyers, and lines of goods showing concessions are more active than are the regular lines of staples on which former

sions are more active than are the regu-lar lines of staples on which former prices are firmly held.

"In industry, aside from a slightly riore cheerful feeling in iron and steel, quiet still prevails. Trade in wire prod-ucts has expanded, helped by the sea-isonable advent of spring demand and the firmness of producers in advancing quotations."

MRS. WADE HELD ON BOND.

Woman Accused of Forgery Enters

Plea of Not Guility.

Mrs. Adell Winifred Wade, who is said to have borrowed more than £,000 by devious transactions, was arraigned in Police Court yesterday on two charges of forgery. The prisoner was apparently on the verge of collapse, and showed plainly the effects of the four days' confinement in a cell at the District jail. Mrs. Wade, who pleaded not guilty, in a voice hardly audible to the clerk, was held for the action of the grand jury, on a bond in each case of £500.

The Safest Investments Are those that do not fluctuate during dis-turbed conditions of the money or stock man-leta. First deed of trust notes (first mortg-ages), well secured on real estate in the Dis-trict of Columbia, constitute "gift-edge" in-restments. They do not depend upon the fluancial responsibility of individuals or cor-porations for their stability, and are enemagh from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet, "Consorning-Loans and Investments."
